

## Observation Clinical Partners

To Schedule an observation, the applicant must schedule and complete an 8-hour observation in a diagnostic imaging department. Be sure to print the WVC Applicant Observation Form and the WVC Confidentiality statement form, bring them with you to have the designated Radiologic Technologist sign your forms. You can schedule your 8-hour observation into smaller timeframes on different days to accommodate schedules and workflow. We recommend that you make copies of all completed forms for your records. These completed observation forms will be uploaded with your application.

### **1. Confluence Health Hospital and Clinics**

For information on how to schedule an observation at a Confluence Health site, (Wenatchee, Moses Lake) contact the program director, Claire Tompkins at [ctompkins@wvc.edu](mailto:ctompkins@wvc.edu) to receive electronic forms and instructions on how to schedule.
